PERSONAL USE & PRIVACY

- 5.1 In the course of normal operations, ICT resources are to be used for business purposes only. The school permits limited personal use of ICT facilities by authorised users subject to the following limitations:
- Personal use must be in the user's own time and must not impact upon work efficiency or costs.
 - The level of use must be reasonable and not detrimental to the main purpose for which the facilities are provided.
 - Personal use must not be of a commercial or profit-making nature.
 - Personal use must not be of a nature that competes with the business of the school or conflicts with an employee's obligations.
- 5.2 Personal use of the Internet must not involve attempting to access the categories of content described in section 4.18 that is normally automatically blocked by web filtering software.
- 5.3 The Department for Children, Schools and Families (DCSF) has published guidance on social networking sites. On page 6, it advises teachers:

When publishing information, personal contact details, video or images, ask yourself if you would feel comfortable about a current or prospective employer, colleague, pupil or parent, viewing your content.

The DCSF also suggests that teachers should not become online friends with pupils or to add them to contact lists, because this could give pupils access to personal information about staff. Teachers are advised to learn how to restrict access to their pages, so that only specific people can access them.

Finally, teachers are not discouraged from using social networking sites for use in class, but are warned to be careful about which sites they use and how they use them.
