English:

This week we are going to be writing our own story based on our Goblin work over the past couple of weeks. Writing at home is not always easy so I have given you options; you could create your own story similar to the original writing step by step, you could edit the original story following my ideas or be creative and create your own magical adventure with goblins.

Magical Story:

Last week you planned your goblin story, and this week we are going to build it up together, step by step.

Today, we will begin with the opening part. Here is what you plan says happens in the first paragraph (the opening):

O	• Main character/s (MCs) visit a setting	• Sammy and Grandmama go into the nearby town	**Who will your MC be and where do they visit?**

So, in this first part of your story, your main character (hopefully you've given them and name) goes to the nearby town with their grandma. If you are happy to get started with your writing, off you go. If you are not sure yet, let's look closer.

This is the first part of the original story, let's look at how we could edit it to create our own story:

The Impossibly Possible Bookshop

"Come on, Sammy," shouted his Grandmama from downstairs in the kitchen. "It's time for us to go into town. I need to post a parcel and ... don't forget your umbrella!"

Ten minutes later, Sammy and his Grandmama were walking through the puddle-patched streets of the nearby town. "Wait here, I won't be a moment!" instructed his Grandmama as she darted into the post office. Sammy waited. It seemed like his Grandmama was taking an extraordinarily long time.

Don't forget to change you main character's name!	What else could Grandma call up to your main character?	What does grandma need to do in town? Does she need to buy something or see someone?	Is it rainy? What other weather could it be? What would you need to bring?	How long does it take your character to get ready? Could you put a simile in instead: as fast as a...	What was your main character thinking while they were waiting?
