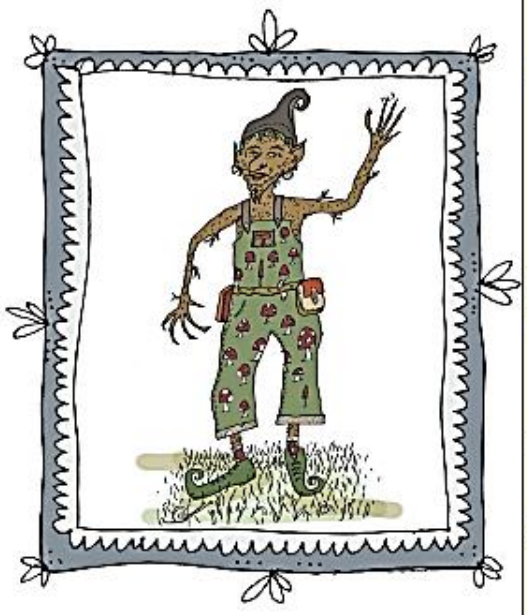
Magical Stories:

Yesterday, you thought of some new ideas for goblins. We are going to spend a bit of time looking further at some of these today.

Choose your favourite 3 and draw a picture of the in the photo frame. Next to the picture of each goblin, write 5 facts everyone should know about the goblin.



5 Tree Goblin Key Facts

1) Tree Goblins can only be found in evergreen trees (trees that do not lose their leaves in winter). The bigger the tree that they live in, the bigger the goblin that lives there.
2) Tree Goblins are vegetarian.
3) They do not get on with Bog Goblins – for centuries they have been arch enemies.
4) Tree Goblins can sleep for up to 14 hours a day and snore loudly.
5) They are not good pets due to their untidiness but they are very friendly.
