Magical Stories:

We are going to write the second half of the start of our story today. Let's remind ourselves of where we are:

B	• MC finds something (a portal) that takes them to another world.	• While Grandmama is in post office, Sammy enters a bookshop and the Tree Goblins world when he opens a book	**Where does your character find the book/portal to the other world? Is it the same bookshop or somewhere else?**

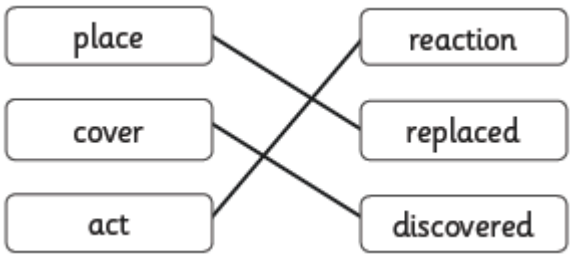
Let's look at this part in the original story.

In the blink of an eye, Sammy found himself inside the trunk of a large tree. Colourful balloons, bunting and banners decorated the room and loud music, that made you want to dance, filled the warm air.

All around the room, small, strange-looking people, wearing brown tweed dungarees covered in toadstools, leaves and roses, danced and sang with great gusto and joy. Their large pointy ears were hidden slightly by their bushy multi-coloured hair and curly-toed velvet shoes hid their enormous, hairy feet. Around their necks each one wore a necklace covered in the most interesting of charms and trinkets.

You are going to be writing this section of the story. Last week you created your own goblin settings. Your main character is transported to this place. The only trouble is that you can't just stick your setting into your writing, you need to describe it, make the reader imagine it just like you created it. What does the setting look like?

ANSWERS:



The Butcher's shop is between the Café and the Bakery.
